

Getting better from Coronavirus

I have Coronavirus. I am staying at home to get better.

I have to spend time by myself while I am getting better.

People will wear special clothes while I am getting better.

This will keep them safe from Coronavirus.

People might wear:

An apron: to keep their clothes clean.

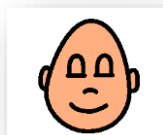

Gloves: to keep their hands clean.

A mask: to keep their face clean.

People will look different when they wear a mask, this is ok.

People will show me their photo and tell me their name when they are working with me.
