Parents Plus Parenting When Separated Programme – Second Edition Notes for Facilitators using the First Edition of the Manual

In November 2016, the Parenting When Separated Programme (PWS) was updated and second editions of the Facilitator Manual and Parent Booklet were published. If you are using the first edition of the PWS Facilitator Manual with the second edition of the Parent Booklet, please note the changes outlined below.

The new version of the PWS Parent Booklet, can be used with older editions of the PWS Manual – see notes below. However, **if you wish to exchange your older edition manual** for the second edition, this can be done by either:

- 1) Booking a PWS training and bringing along the manual for exchange (please email in advance if you are doing this). This exchange is for free once the training is paid for.
- 2) For the fee of €80 (postage and packaging included) for an already trained PWS facilitator, if you return the original PWS manual to the PP office.

Please email admin@parentsplus.ie to confirm exchange arrangements.

Changes in the Second Edition

1. We have added new chapters to the Facilitator Manual on running group sessions ('Running Group Sessions'), and the specific challenges of delivering the PWS programme (Challenges), which explores topics such as, the emotional impact of the course on facilitators and how to manage the level of disclosure in groups.
2. We have created two posters (included in the Facilitator Manual) to facilitate the presentation of the course in a visual, accessible way.
3. We have reformatted the course content, so that in each session there is a balance between content on supporting parents and content on supporting children.
4. The PWS Parent Booklet is now in colour and we have tried to present the information in a clearer way that is accessible to more parents.
5. We have revised and extended some of the worksheets and group exercises, as well as the 'Seeking Further Help' section at the end of the booklet.
6. The handouts and worksheets are no longer numbered and some of their titles have been shortened.
7. In the Parent Booklet, a 'Plan for the Week' section has been added at the end of sessions 1-5. Based on the content covered in each session, this section encourages parents to try out certain ideas or

watch out for certain things during the week. It also has suggestions for parental self-care activities and exercises.
