

## What is Coronavirus?

Coronavirus also called Covid-19 is a new virus that can make you sick.

People with Coronavirus may have a fever, a cough, or find it hard to breathe.

There are lots of things that we can do to help stop the spread of Coronavirus:

Cough into your elbow or a clean tissue.

Put dirty tissues in the bin.

Wash your hands well with soap and warm water.

Use hand sanitiser to keep your hands clean.

Wave or tap elbows when you are greeting people.

Talk to someone if you have questions about Coronavirus or

You can read lots more information about Coronavirus on the HSE website. [www.hse.ie](http://www.hse.ie)
